

# Bishop Allen Academy Toronto Catholic District School Board Etobicoke, Ontario

Continuing demand since 1993 necessitated that the Toronto Catholic District School Board consider expanding the classroom and infrastructure capacity at Bishop Allen Academy.

The existing under-used exterior courtyard was enclosed with a roof for expansion of the existing ground-floor Cafeteria, thereby doubling the lunch-time capacity.

A mezzanine was provided above, containing four new classrooms to consolidate facilities indoors.

Client requests for computer lab upgrades and server renovations were accommodated as increased scope of work during construction.

A second infrastructure upgrade project included additional Science Lab space on the ground floor. Art Room facilities were relocated to the second floor.

The science labs were designed and built as a prototype for the Science Lab standard for the School Board.

The resulting rationalization of space is expected to enhance the science program and facilitate future growth.

## Four-Classroom Plus Cafeteria Expansion

Client: Mr. Ken Cochrane  
Chief Architect, Toronto Catholic School Board  
416-222-8282 #2347

Area: Base Building- 83,000 s.f.  
Addition - 6,600 s.f.

Budget: \$1.8M Final Cost: \$2.1M  
Client Upgrades

Status: Started September, 2003  
Completed March, 2005

Key People: Deborah Scott, Principal-in-Charge  
Ashley Wilson, Project Manager

## Science Lab / Art Room Expansion

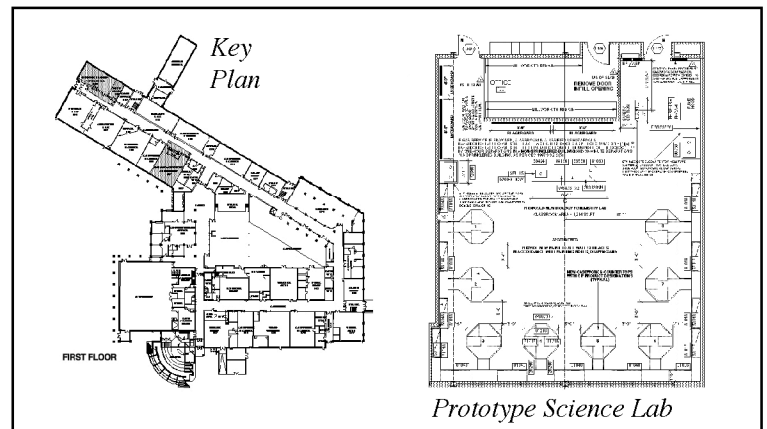

Client: Mr. Vince Artuso  
Supervisor, Project Administration  
Toronto Catholic District School Board  
416-222-8282 #2693

Area: Base Building- 89,600 s.f.  
Renovations- 2,500 s.f.

Budget: \$0.6M Final Cost: \$0.6M

Status: Started June 2006  
Completed September, 2006

Key People: Deborah Scott, Principal-in-Charge  
Ashley Wilson, Project Manager
